GAMING CONCESSIONAIRES
ABOARD SOUTH FLORIDA-BASED
CRUISE SHIP LINES
INFORMATION CONCERNING

On June 27, 1991, a confidential source of unknown reliability provided the following information to a Special Agent (SA) of the Miami Field Division, Federal Bureau of Investigation (FBI):

The cruise lines operating from bases in the South Florida area which have gambling concessions aboard their vessels were identified as follows:

DISCOVERY CRUISES INC.

DOLPHIN CRUISE LINES

NORWEGIAN CRUISE LINES (NCL)

ROYAL CARIBBEAN CRUISE LINES

CARNIVAL CRUISE LINES

COSTA CRUISE LINES

SEA ESCAPE CRUISE LINES

A number of companies have been contracted to serve as "concessionaires" or gaming casino operators aboard the vessels of the above cruise lines. Three of the most prominent such "concessionaires" are the following:

1. ~~ATLANTIC MARITIME~~ whose offices were said to be located at 990 NW 166th Street, Miami, Florida.

(On June 27, 1991, records of the Florida Secretary of State, Corporations Division, Tallahassee, were caused to be searched and reflected that ATLANTIC MARITIME CORPORATION, is an active and current Florida Corporation [redacted]
[redacted]

b6
b7C

2. O & M CONSULTANTS, Miami area telephone number 921-4435.

(On June 27, 1991, Florida Secretary of State records showed that OM CONSULTANTS INC. was an active and current Florida corporation located at 1850 Eller Drive, Suite 101, Port Everglades, Fort Lauderdale, Florida 33316. [redacted]

3. SPORTSMENS CLUB, London, England.

(On June 27, 1991, a search of the Florida Secretary of State Corporations Division files failed to disclose any record for this concern as a Florida-based or foreign company registered in the state.)

The confidential source further advised that the following individuals could be of possible assistance in developing additional information concerning the selection of gaming concessionaires in the cruise ship industry:

FEDERAL BUREAU OF INVESTIGATION
**DISPOSITION OF CONSENSUAL MONITORING
ELECTRONIC SURVEILLANCE (ELSUR) MEDIA
ACQUIRED IN CRIMINAL INVESTIGATIONS**

Background

In accordance with authorities provided by the National Archives and Records Administration (NARA), the FBI has developed a Disposition Plan allowing for the destruction of original consensual monitoring media acquired in criminal investigations after 11 years has elapsed from the last date of interception and when certain other conditions have been satisfied:

The 11 year time frame is consistent with statutory requirements present in maintaining Title III ELSUR media, see (Title 18 USC § 2518 (8) (a)). The 11 year retention period will further permit the media to remain in existence for a period sufficiently long in time to satisfy the statute of limitations for actions against the government. As provided by Title 28 USC § 2401(a), an action must be brought within six years from the time the right of action first accrues.

This destruction plan applies to original electronic surveillance media obtained via Departmental/SAC/ASAC approval and court authorization(s) for consensual monitoring. This disposition plan does not apply to transcripts, logs, indices, and other reports drawn from ELSUR media which are incorporated in FBI case files.

Destruction Guidelines

The following statutory/regulatory requirements must be met in determining destruction eligibility for consensual monitoring ELSUR media:

A minimum period of 11 years must have elapsed from the last date of intercept.

- The media must not have known historical value (i.e., well-known national public figure(s) or event(s), etc.).
- Media containing evidence of a criminal offense will be retained until a decision is rendered by prosecutory authorities. If a decision to prosecute is made, media will be retained until the end of the prosecution process and any appeals.
- Media required to be retained by applicable rule of law or judicial order.

Furthermore, FBI policy requires that the following conditions be satisfied in determining destruction eligibility for consensual monitoring media:

- The case must be in a closed status.

There are no pending fugitive issues.

There are no pending or anticipated litigation/prosecutory issues.

The media must no longer have investigative or intelligence value.

To assist FBI field offices in significantly reducing the space required for media storage without continuing value, the Records Management Division (RMD), has created this checklist to readily identify original ELSUR consensual monitoring media eligible for destruction.

Note: Physical destruction of eligible ELSUR media is to be handled in accordance with provisions of the FBI security policy manual, entitled "Destruction of Classified and Sensitive Material." This information may be obtained by accessing the Security Division's intranet website under "Communications," "Security Policy."

Any questions regarding the use of this checklist may be directed to FBIHQ, RMD, ELSUR Operations Unit or the Office of the General Counsel, Investigative Law Unit.
